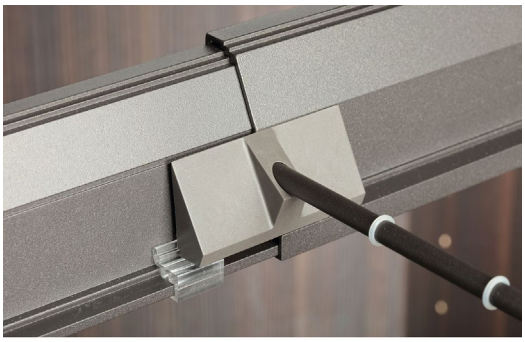
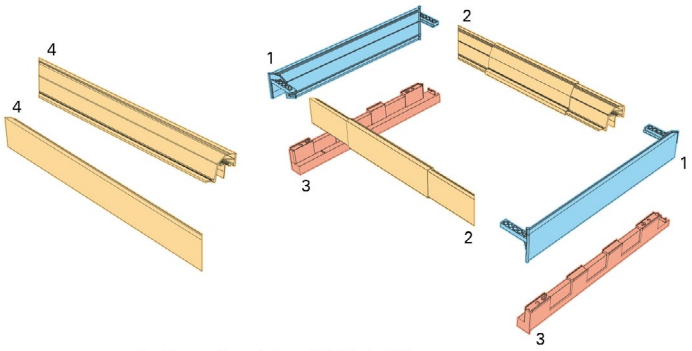
ACCESSORI INTERNI PER ARMADIO "PAPILLON"

- Papillon è la nuova gamma di Servetto dedicata alla parte bassa dell'armadio
- Estremamente facile da gestire in quanto i vari accessori sono estensibili, pertanto adattabili a qualsiasi vano
- Con il nuovo sistema di estrazione Papillon si ottiene una grande stabilità laterale in estrazione, data dalle guide a scomparsa Blum estrazione totale
- Finiture disponibili: bianco e antracite; tali finiture sono abbinabili con le finiture del saliscendi



La sponda frontale del telaio estensibile e divisa in tre parti, non tutte alla stessa quota.
Per risolvere lo scompenso, si puo utilizzare l'accessorio compensatore per avere tutto alla stessa quota di appoggio.



1. Spondine laterali DX + SX
2. Fronte + Retro per telaio estesibile
3. Adattatore guida Blum
4. Barra fissa da tagliare a misura

Calcolo per determinare lo spazio interno del telaio per la scelta degli accessori

Larghezza Telaio Utilizzabile (Lu) = Larghezza Vano (L) - 120mm
Usable Frame Width (Lu) = Width Compartment (L) - 120 mm
